Awards for All application checklist

Awards for All Advice Line 0845 4 10 20 30 general.enquiries@awardsforall.org.uk

It is important that you work through this checklist before you start completing the Awards for All application form. This checklist has been designed to help you decide if Awards for All is right for your project or organisation, before you go to the time and expense of submitting an application. The checklist also helps us as it reduces the number of ineligible applications we need to process, which means we can keep our costs down and give more money out in grants.

**Crafthole Park**

10. **What project or activities do you want us to fund?**  
You can write up to 2,500 characters with spaces (about 300 words)

The aim of the Crafthole Park Project is to give the young and teenagers in our Parish access to a central safe area with play equipment and provide a social hub for them and the wider community. It is the result of extensive consultation with residents and representatives of the many volunteer groups we have within the community and a key element in our Parish Plan. The Parish Council have the lease of additional land for 40 years confirmed and agreed to its maintenance (grass and hedge cutting, waste removal equipment) and insurance and inspection of the play equipment. With funding from Awards for All we would be able to purchase the required safety inner picket fencing, a nest swing (disabled friendly) and a bank slide. This will complement the existing area which consists of a few pieces of low level wooden equipment suitable only for younger children, we would like to add further equipment to the play area to which would make it suitable for ages 1-12 and children of all abilities. There are no schools or adequate children’s play area within the parish; the closest is 5 miles away. The roads are narrow, busy and dangerous which can lead to the children being isolated and poor development of their social skills. There are no sports or gymnasium facilities in the parish with the closest range of facilities in Plymouth, 6 miles away by road and ferry or 16 miles by road.

11. **When will your project take place?**

CHAT (Community Health around Torpoint charity number 1080135) donated £300 towards the outer stock fencing. Rame Community Fund have donated £100 to pay the fencing supplier. A fundraising day is planned on Saturday 26th September 2015 with cream teas, face painting, bouncy castle, BBQ and music with tickets now on sale we aim to raise £600-£700 and other events are being planned. The Friends of Crafthole Park are applying to SWDWP for funds towards fencing and seating and expect an answer in October with funds paid end November.

c) How have you worked out your costs? You can write up to 800 characters with spaces (about 100 words)

Question 14
We may need you to send further information about land ownership if we offer you a grant.
If you need planning permission, you must have it before you apply.
We may need you to send confirmation that planning permission is not required, or that it is required and has been granted.
Part three – The difference your project will make

15(a). Why is your project needed?
You can write up to 1,500 characters with spaces (about 200 words)
There are three main villages that make up the parish of Sheviock and the close proximity of naval establishments also makes the parish home to service families. The mother and toddler group have a strong interest in this venture as they are concerned with the lack of exercise and opportunity for outside play in safe areas for their children as they grow up. For older children, we need somewhere safely accessible on foot and by bike to meet with their friends outdoors. During the summer months we see a huge increase in visitors to our Parish. Currently, there is no adequate play-park where people can meet within the parish and families and visitors have to drive 5 miles to the nearest facilities. We currently have a small area of land with a few pieces of low level wooden equipment suitable for younger children only. We would like to provide a safe area for both younger and older children where they can meet and improve their social skills and make new friends therefore reducing loneliness. The majority of parishioners are prepared to be directly involved with this vital project which addresses the major aspects of all our lives, well-being, healthy exercise and social inclusion.

15(b). What evidence do you have to show that your project is needed? How have you consulted with the people who will benefit from your project and what did you find out?
You can write up to 1,500 characters with spaces (about 200 words)
The need is entirely based on evidence gathered from the community over many years. The need was originally identified in the Parish Plan in 2004. A subsequent parish wide consultation in 2013 confirmed the need. 183 signatures (approx. 30% of parish population) supported the need for a recreation area, with many of the comments stating “yes please” and “very much needed”. The signatures of support include the local pre-school, headmistress of the closest local primary school and local childminders, who all agreed the need for outside play when adhering to EYFS government framework.
As a result, the Parish Council distributed a questionnaire to all residents of the parish asking if they would use a Play park area and what they would like to have included.
An open day in the village hall January 2014 presented the results which lead to 101 voting forms completed (approx. 17% of parish population). The most requested items of play equipment were swings and a slide.
The Parish Council secured additional land necessary and a new lease agreed with Antony Estate in February 2015.
A Friends Group has been set up with also an informal Youth Friends Group to help with initial fundraising and provide long term sustainable development.
16(a). How will you promote and publicise your project?
You can write up to 1,200 characters with spaces (about 150 words)
- Parish Council - monthly agenda item from the Open Spaces SubGroup. Agenda and minutes displayed on parish noticeboards and website.
- Events and news posted on the Parish website Forum
- Articles in Sheviock Parish Newsletter distributed to all households in the Parish
- The Friends of Crafthole Park facebook page with regular updates
- Cascading news and updates through the members of the Friends Group
- Local schools distributing leaflets for the open day in every child's book bag
- Open Day posters displayed in surrounding villages
- Crafthole Community Shop selling tickets for the open day.

16(b). How will your project actively seek to involve as wide a range of people as possible?
You can write up to 1,200 characters with spaces (about 150 words)
We are a relatively small community and by involving as many existing groups within the Parish and regular engagement with the pre-school we aim to encourage any lonely parents/carers and children to become involved, including those that are shy and less confident. We can do this through updating community groups and clubs with older residents who meet at the village hall and Churches, e.g coffee mornings and involving parents, grandparents and visitors in fundraising activities. We are also asking clubs how they could use and promote the use of the park, e.g the Parish Gardening club will be looking after the flora aspects of the projects with an aim to help everyone appreciate the meadow lands in which the project stands and the badminton club will be able to use the space as an outdoor practice area in good weather. Part of the role of the Friends Group will be to monitor use and identify opportunities for development to encourage all groups within the community to use the facility.

Read these help notes

Question 16(a)
Explain what you will do to make sure that people from different backgrounds know about your project and how to benefit from it.

Question 16(b)
If you have identified any groups who could benefit but are less likely to take part, explain why this is the case and what you will do to tackle it. If your project will involve the wider community tell us how. If you plan to restrict who can take part in your project you should explain why, so that we can consider if this is acceptable.
17. What is the change or difference your project is going to make?

Tick the outcomes that reflect the change or difference your project will make.

Your project must meet at least one of the outcomes to be considered for a grant, but you don't have to tick all four boxes. Only tick the outcomes your project will help to achieve.

- **People have better chances in life** – with better access to training and development to improve their life skills.
- **Stronger communities** – with more active citizens working together to tackle their problems.
- **Improved rural and urban environments** – which communities are better able to access and enjoy.
- **Healthier and more active people and communities.**

Tell us in your own words how your project will meet each of the programme outcomes you have ticked.
You can write up to 3,000 characters with spaces (about 400 words)

1) **People have better chances in life** if they have confidence and good social skills. The park at Crafthole will provide a safe place for children to meet and mix. The children will be encouraged by the garden club group to be involved with planting and maintaining the area and this will further increase their self-confidence. The Informal Youth Group formed as part of the Friends of the Park is empowering the children to think of their own ways to fundraise, within the events organised by their parents, giving them new skills and introducing them to the value of money and the need for self-help. This project provides a safe central point for residents of the three villages in the parish to gather, with friends and family, close to home, to relax and spend time, playing and socialising together. It will enable everyone to develop social skills and overcome loneliness, therefore improving life skills. 2) **An even stronger community** will be generated through the project which has already encouraged a number of families who previously have not been active in village activities to join the Friends of the Park group. The involvement of the garden club with the younger parents and with children will also create new friendships, increase the involvement in community activities, and strengthen the community spirit. The support of young families in the Friends Group will provide the ambassadors to encourage new residents and those who are shy to take their children to the park to make the facility really all inclusive. 3) **Improved urban and rural environments** by providing community use of a much improved park area, most of which currently is unavailable to the public. The area has been chosen because it is central to the parish, can be accessed safely by foot on footpaths, is protected from the prevailing south westerly winds and gives magnificent views over the Tamar Valley, which has ANOB status. The development of flora within the area will further enhance the local environment. 4) **Healthier and more active people and communities** by providing outdoor equipment. The parish council has recently established two new footpaths that now enable virtually all parish residents to access the park on foot or by bicycle without having to use the busy main roads. This central facility will encourage healthier and more active people by allowing them to use this new outside play area and access it by walking without the need for car transport.
18. Does your project involve work with children, young people under the age of 18 or vulnerable adults?

We want you to tell us who will mostly benefit from your project. When answering each question you should consider the makeup of the population in the area where you are delivering your project and who you think is most likely to use or get involved in it. If you tick ‘No’, this means that you don’t expect any group or groups will benefit more than other groups listed. If you tick ‘Yes’, this means that your project will be particularly relevant to some of the groups listed.

We primarily ask these questions to understand the spread of our funding. There are no model answers. The information you give us will depend on what your project is for.

We will cross-reference the information you provide against other information supplied in your application form. If there are any inconsistencies we may follow this up with you.
